

Verti-Gro® Commercial Systems

**HIGHER YIELD, LOWER COST,
BETTER QUALITY PRODUCE**

Verti-Gro® offers commercial growers unlimited options to take advantage of over 40 years of proven hydroponic vertical farming experience and system design. Our sustainable growing systems are perfect for small and large farms, research and education programs, schools, universities and hospitals.

Verti-Gro® Systems Use:

- 85% less water
- 70% less land
- 50% less fertilizer
- 90% less energy

...than traditional soil-based growing systems

Temecula Valley Strawberry Farms in Rainbow Valley, CA manages 2,300 Verti-Gro® hydroponic towers with 45,000 plants per acre, almost three times as much as in traditional row farming.

« Please contact EnviroIngenuity at (949) 376-4619 for commercial quotes on larger systems. »
